Serving Richmond and the surrounding area since 1983

OUR SERVICES

Equipment Installation

We have full HVAC systems from premium manufacturers such as York & Honeywell. We also offer a 365 day satisfaction guarantee on all our York products. Financing Is Available. Complimentary Preferred Client Service Agreement included with every new installation. 10 Year parts and labor warranty on all York systems; the best warranty available in the industry.

Residential & Commercial Services

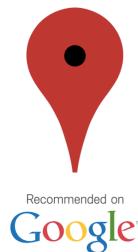

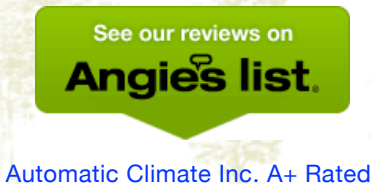

We specialize in both residential & commercial heating and Air Conditioning repair. Automatic Climate is committed to keeping our clients comfortable all season long. Our highly trained and experienced technicians will provide the speedy, high-quality service you can depend on with Automatic Climate. Plus Automatic Climate is the only company in Virginia confident enough to offer a One year Guarantee on anything we repair.

Preventative Maintenance

Consider that the average Air Conditioning repair costs about \$600. Our exclusive service agreements offer preventative maintenance to help ensure your system is running at peak performance. Plus, you'll have the added value of knowing that your HVAC system is protected year-round. Service Agreements are available for commercial and residential clients.

Air Duct Services & Cleaning

Our technicians will inspect your entire air duct system to ensure proper airflow and cleanliness. Once the inspection is complete we use specialized tools in conjunction with contact vacuuming to dislodge dust and other particles from inside your air ducts. This is done using tools such as the camera guided Rotobrush duct cleaning machine.

Save up to 80% on your energy bills and get an unlimited 30% tax credit when you purchase a new Geothermal Heating & Cooling System from Automatic Climate.

OUR SERVICES (CONTINUED)

Home Insulation

We can encapsulate and condition crawl-spaces. Automatic Climate installs attic and sub floor insulation at competitive prices. Proper home insulation can help cut energy cost by up to 50%. We will complete a thorough walkthrough of your home to help analyze trouble spots. Properly installed insulation will keep you cool in the summer and warm in the winter.

Geothermal Heating & Cooling

Geothermal heat pumps are the most energy-efficient and environmentally friendly HVAC systems available.

Geothermal technology uses a series of sealed piping loops buried in the ground that tap the renewable energy of the earth. These loops create a better heat transfer medium than traditional air source systems.

HVAC Security Cage

Protect your outdoor A/C Unit from vandals and thieves. Automatic Climate, the company you trust to service, repair and install your HVAC systems is now offering a full line of customized A/C cages for your out door unit. Custom cages are built to match the frame and design of your system.

24 Hour Emergency Service

Professional help is available anytime, 24/7!

Automatic Climate has 24/7 emergency service! If you require our assistance after hours, just call (804) 276-5127 and follow the telephone instructions. The message you leave will automatically page our on-call NATE Certified Service Technician who will respond to your emergency needs.

THE AUTOMATIC CLIMATE STORY

Automatic Climate Inc. is a family owned business dedicated to serving Virginia's heating and air conditioning needs. Our mission is to keep your family, home, & workplace comfortable all year long.

Alan Purser Sr. started Automatic Climate in 1983 with one pickup truck and a strong work ethic. Coupled with a comprehensive skill set, and an understanding that Quality, Service, and Client Satisfaction come first, Automatic Climate has grown into one of Virginia's finest full service heating and air conditioning companies.

As a family owned business, there is more than just the company reputation involved in every transaction. Our technicians are trained in advanced industry standards, and we maintain a mandatory extended training program. All our service technicians are NATE certified. NATE is the highest certification available to technicians today. Automatic Climate is also the only company in Richmond Virginia confident enough to offer a One-Year Guarantee on anything we repair.

It's very rare that we need to come back and fix a problem. But, if any part we repair doesn't work or breaks, we'll come back and replace the part free of charge for one year. That's our promise to you.

-ALAN PURSER JR.
