Full DC Inverter Driven Technology. Compressor rotation direction & speed modulate to match load conditions.
Designed to Work with YORK® Variable Speed or Standard ECM Indoor Equipment. Ideal for traditional duct.
Traditional HP Wiring & Configuration. Compatible with standard 24V heat pump thermostats. Outdoor unit does NOT power the AHU.

Standard Line Set with Brazed Connections. Pipes-in like a traditional vertical discharge heat pump.

Long Line Set Length. Up to 246 ft (164' on 2T).

Installation Kit Required. Contains a bi-flow filter/drier, simple relay & wiring harness. HMH7AK001 – standard ECM. HMH7AK002 – variable speed.

Warranty Summary: Extended no-charge 10-year limited parts & compressor warranty with online registration within 90 days of purchase for replacement or closing for new home construction. Warranty does not apply to internet sales. See the Limited Warranty certificate in the User's Information Manual for details. Eligible for YorkCare™ Extended Labor Warranty plans.

* 40% Smaller Footprint

* Fits in Tight Spaces

*Standard TXV's in AHU

* 36% Quieter (54 dBA)

* Heated Base Pan

Dual Fuel Compatability Coming Soon
