Air Quality Filtration & Purification

Air filtration and purification is king when it comes to the health of your home. Take the opportunity to breathe better air with these solutions!

Aprilaire Whole Home Air Cleaner

Replaces your 1" air filters with a high-efficiency air filter capable of capturing common allergens, dust, pet dander, mold spores, and pollen in your home. Filters can last up to 6 months for added convenience.

\$423 - \$797*

**Price dependent on system size*

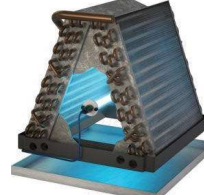

Nu Calgon iWave Ionizer

The Nu Calgon iWave ionizes air as it passes by, which works to kill any airborne mold spores, viruses, and bacteria. Ionization is also effective at reducing VOCs and odors in the home. Unlike other electronic air quality devices, the iWave requires no maintenance or consumable parts.

\$812 each

Blue-Tube Germicidal UV Light

UV lights are very effective at killing any surface-borne biological growth and are typically used to prevent this growth on indoor coils and drain pans. The Blue-Tube UV light mounts directly inside your air handler or cased coil. UV bulb recommended to be replaced every 2 years.

\$462 each

Rotobrush Duct Cleaning

Our process begins by removing all vent grilles, cleaning and sanitizing them outside, then running our Rotobrush duct cleaning hose and brush in each individual duct. The Rotobrush duct machine is equipped with a HEPA filtration system to capture any dust or debris. Once complete, our crew will fog the duct work with a bio-degradable sanitizer.

\$576 - \$960*

Aprilaire 1850 Dehumidifier

Control moisture in your home or basement to prevent the growth of mold and feel more comfortable in summer months. The Aprilaire 1850 can be installed as a standalone unit or ducted to your central air system.

\$3347*

Aprilaire 800 Steam Humidifier

Dry air can make you more susceptible to airborne illnesses, which is why humidification is critical during the winter to help keep your home healthy and feeling comfortable. The Aprilaire 800 works by injecting steam into your duct work to deliver up to 34 gallons of water per day.

\$2418*

Aprilaire 700 Evaporative Humidifier

Dry air can make you more susceptible to airborne illnesses, which is why humidification is critical during the winter to help keep your home healthy and feeling comfortable. The Aprilaire 700 evaporates water into your duct work, up to 18 gallons per day.

\$978*

Honeywell T10 WiFi w/ App

Upgrades your Honeywell T6 or Aprilaire 8466 thermostat to the Honeywell T10 WiFi Smart thermostat with Android / iOS app. Also includes a remote room sensor to let you monitor and control the temperature in a room other than where the thermostat is installed.

\$237

**Assumes a typical installation. May require additional cost depending on accessibility.*

Additional Home Protection Services

YORKCare™ Protection Plan

Most system failures occur when you least expect them. YORK's extended warranty provides up to 10 years of total system protection with no deductibles or repair limitations. Preserve your home comfort, and peace of mind, for years to come with this exclusive manufacturer warranty option. Must be purchased at time of installation.

\$479

1-Year Seasonal Maintenance

While your new system includes complementary 1-Year Seasonal maintenance, you may add any additional systems in your home to this plan at a special price at any time.

\$99
per system

Dryer Vent Cleaning

Lint can build up inside your dryer vent over years of use and needs regular attention. Appliance manufacturers recommend a dryer vent cleaning every 5 years, but some require more frequent cleaning. As a courtesy, our technicians can inspect your dryer vent at your regular HVAC maintenance visit.

\$99

Tankless Water Heater Maintenance

Mineral deposits and scale build-up can occur in your tankless water heater, preventing it from working when you need it. Take advantage of our special pricing to flush and maintain your water heater to keep it running reliably.
